Company Profile

# Sun Earth Co., Ltd. provides advanced Machines and Equipment for Recycling, Waste Treatment, Forestry and related industries

Sun Earth Co., Ltd. provides machines and equipment for recycling, waste treatment, forestry and related industries. The equipment is developed and manufactured in Europe – mainly in Germany, a country well known for its long history of mechanical engineering and advanced technologies.

We provide maintenance and service as well as immediate parts supply to ensure maximum performance of the machines and highest efficiency for our customers.

The most important motivation for us is customers being happy

having bought their equipment from Sun Earth. The positive evaluation by our customers is a major source to continue our business.

Furthermore, we also value and respect the cooperation with our suppliers, partner companies and everybody involved in our business. Our daily business includes interacting with people with different nationalities, gender, age, careers and characters whom we all treat faithfully and with great respect.
